

MOOC Aggregator

The screenshot displays the MOOC aggregator interface. On the left, a sidebar shows the search results for 'Agriculture', including a search bar, search results dropdown, and a list of search results. The main content area shows the 'Future Learn' logo and the course 'Our Hungry Planet: Agriculture, People and Food Security' by 'futurelearn'. The course description states: 'Food security is a complex, global issue, in which we all play a part. In this free online course, you'll join experts from the School of Agriculture, Policy and Development at the University of Reading, to investigate our relationship with agriculture and your own food habits. Meet food producers around the world. We'll take you on a journey around the world from Europe to Africa to Asia. Over six weeks, we'll find out more about the challenges of growing crops and managing livestock at the regional, national, community and household level. We'll focus on the experience of family farmers (who produce 80% of the world's food) in rural and urban settings in Uganda and the UK. askina:'

Objectives: provide single point of access to MOOC opportunities for students.

The screenshot shows the 'List courses' page in the MOOC.ca admin interface. At the top, there is a navigation menu with options: General, Harvester, Users, Newsletters, Database, Meetings, Accounts, Permissions, and Viewer. Below the menu is a search bar with a 'Find:' label and a 'List Again' button. The main content area displays a list of 116 courses, starting with 'Critical Development Perspectives' and 'Adaptive Leadership in Development'. Each course entry includes a date (6 Jun 2017) and a set of links for editing and deleting the course. On the left side of the page, there is a vertical sidebar with a list of administrative functions, each preceded by a '[New]' or '[List]' label, such as '[New] Author', '[List] Banned sites', '[New] Box', etc.
